

Sprint 1 Planning Document

Sprint Overview

The main goal of Sprint 1 is to initialize the Next.js project architecture, establish the database connection securely, and implement the authentication lifecycle (Registration, Login, Profile Management), with the core application layout. By the end of this sprint, our team will have a functional skeleton of the application.

Scrum Master: Xavion Marable

Meeting Schedule: Tuesdays & Thursdays @ 4:30 PM (MS Teams)

Risks and Challenges

With everyone focusing on their own user story simultaneously, we risk merge conflicts in global config files like layout.tsx. Plus, some of us are new to the App Router, so getting the API routes right could take a second to figure out. We also have to make sure that all members can connect locally to the shared MongoDB Atlas cluster without any IP whitelisting issues.

2. Current Sprint Detail

User Story #1: User Registration

"As a user, I would like to be able to create an account."

"As a user, I would like to be able to edit my profile details, like name, school, location, and profile picture."

- **Owner:** Xavion Marable
- **Estimated Hours:** 10 Hours
- **Tasks:**
 - Create the **User** schema in Mongoose (email, password, etc.) (2 hrs)
 - Build the **POST /api/auth/register** route and the Sign-Up Form UI with Zod validation. (3 hrs)
 - Build the **PATCH /api/user/me/profile** route and the "Edit Profile" UI to handle partial name/school updates. (3 hrs)
 - Write unit tests to make sure any duplicate emails get blocked and profile changes are saved to MongoDB. (2 hrs)
- **Acceptance Criteria:**
 - **Given** that I'm on the sign-up page, **When** I enter a valid email/password, **Then** a new user document is created.
 - **Given** that I try to sign up with an email that's already taken, **When** I hit submit, **Then** show a "User already exists" error.

- **Given** I am logged in, **When** I edit my school to “Purdue”, **Then** the change appears on my profile immediately.
- **Given** that I type in a password shorter than 6 characters, **When** I try to submit, **Then** the form shouldn't let me proceed.

User Story #2: User Account Login and Management

As a user, I would like to be able to login and manage my account settings.

- **Owner:** Logan Wilkinson
- **Estimated Hours:** 14 Hours
- **Tasks:**
 - Build the `PATCH /api/user/me` (2 hrs)
 - Build the `POST /api/auth/login`. (3 hrs)
 - Make the Login Form UI. (3 hrs)
 - Make the Account Settings UI. (3hrs)
 - Write a unit test to make sure any incorrect logins get rejected. (2 hrs)
- **Acceptance Criteria:**
 - **Given** that I'm on the sign-in page, **When** I enter a valid email/password, **Then** the user is logged in and sent to the front page.
 - **Given** that I'm on the account settings page, **When** I change any settings, **Then** the change will take effect and be reflected on the account immediately.
 - **Given** that I try to sign in with incorrect info, **When** I hit submit, **Then** show a "Incorrect Email or Password" error.
 - **Given** I am logged in, **When** I edit my account settings, **Then** the change appears on my account immediately.
 - **Given** that I type in an incorrect password, **When** I try to submit, **Then** the form shouldn't let me proceed.

User Story #3: Password Reset

As a user, I would like to be able to reset my password via email/sms if I forget it.

- **Owner:** Logan Wilkinson
- **Tasks:** 10 hours
 - Build the `POST /api/auth/password-reset` (2 hrs)
 - Build the `POST /api/auth/password-reset/confirm`. (3 hrs)
 - Make the password reset Form UI with ZOD validation. (3 hrs)
 - Write a unit test to make sure any incorrect emails for password reset get rejected. (2 hrs)
- **Acceptance Criteria:**
 - **Given** that I'm on the forgot my password page, **When** I enter a valid email/sms, **Then** a password reset link is sent to the selected method of communication.
 - **Given** that I try to input an email or phone number that is not attached to a user account, **When** I hit submit, **Then** show a "User does not exist" error.
 - **Given** I am visiting the password reset link, **When** I input a new password, **Then** the change takes effect immediately and allows login with the new password.
 - **Given** that I type in a password shorter than 6 characters or that doesn't match, **When** I try to submit, **Then** the form shouldn't let me proceed.

User Story #4: As a user, I would like to be able to input my travel preferences.

- **Owner:** Shreyansh Tehanguria
- **Tasks:**
 - Create Trip/TripSettings schema in Mongoose (origin, destination, dates, budget, transport, must/avoid, interests, createdBy, groupId) **(2 hrs)**
 - Build **POST /api/trips/create** (or /api/trip-settings) to save trip settings + basic validation **(2 hrs)**
 - Build **GET /api/trips/me** (or /api/trips/{id}) to fetch saved trip settings for editing/reuse **(1.5 hrs)**
 - Create Trip Settings UI page + form (Zod validation, dropdowns, multi-city toggle, etc.) **(3 hrs)**
 - Connect UI → API (save, load existing trip settings, show success/error states) **(1 hr)**
 - Write unit tests for:
 - creates trip settings successfully
 - rejects invalid payload (missing origin/destination/dates, negative budget, etc.)
 - ensures user can only access their own trips / group trips **(0.5 hrs)**

-

- **Acceptance Criteria:**

- Given I'm on the Trip Settings page, when I submit valid settings, then a TripSettings document is created and saved.
- Given I submit missing/invalid fields (ex: no destination or negative budget), then the form blocks submission and shows an error.
- Given I previously saved trip settings, when I reopen the page, then my saved settings load correctly.
- Given I try to access someone else's trip settings, then the API denies access (401/403).
-

User Story #5:

As a user, I would like to be able to message the members of my travel group.

- **Owner:** Logan Wilkinson
- **Tasks:**
 -
- **Acceptance Criteria:**

3. Backlog (Future Sprints)

User Account

- ~~● As a user, I would like to be able to create an account.~~
- ~~● As a user, I would like to be able to login and manage my account settings.~~
- ~~● As a user, I would like to be able to edit my profile details, like name, school, location, and profile picture.~~
- ~~● As a user, I would like to be able to reset my password via email/sms if I forget it.~~

Travel Groups

- ~~● As a user, I would like to be able to create travel groups.~~
- ~~● As a user, I would like to be able to manage my travel group.~~
- ~~● As a user, I would like to be able to leave my travel group.~~
- As a user, I would like to be able to access a shared calendar for my travel group.
- As a group leader, I would like to be able to transfer my leader's permission to another member.
- As a group leader, I would like to be able to remove specific people from the travel group.
- ~~● As a user, I would like to be able to message the members of my travel group.~~

Trip Creation

- ~~● As a user, I would like to be able to input my travel preferences.~~
- As a user, I would like to create a budget for the trip.

- ~~As a user, I would like to be able to specify transportation preferences.~~
- As a user, I would like to be able to add activities/locations as must haves.
- As a user, I would like to be able to add activities/locations to avoid.
- As a user, I would like to be able to generate a random location based on budget.
- As a user, I would like to be able to see recommendations/extra info for activities.

Itinerary Interaction

- As a user, I would like to be able to see reviews for places people have travelled.
- As a user, I would like to be able to see a summary of reviews for activities.
- As a user, I would like to be able to visit sites for more information about activities.
- As a user, I would like to be able to go to activity booking sites via external links.
- As a user, I would like to be able to find temporary bag storage.
- As a user, I would like to be able to have an offline itinerary view.
- As a user, I would like to be able to see a visual map representation of the itinerary.
- As a user, I would like to be able to have an offline map view.
- As a user, I would like to be able to create reminders for my travel plans.

- As a user, I would like to be able to access an SOS button that shows emergency numbers.
- As a user, I would like to be able to write reviews for places I've visited.

Itinerary Modification

- As a user, I would like to be able to generate alternative plans.
- As a user, I would like to be able to make changes to only one part of an itinerary.
- As a user, I would like to be able to click a button to regenerate selected options.
- As a user, I would like to be able to click a button to remove options.
- As a user, I would like to be able to vote on specific activity options created by the itinerary generator.
- As a user, I would like to be able to retrieve previous itineraries.
- As a user, I would like to be able to post itineraries visible to all app users.
- As a user, I would like to be able to share itineraries via link.
- As a user, I would like to be able to export itineraries to my preferred calendar.

Itinerary Budget

- As a user, I would like to be able to post a shared cost to the group ledger.
- As a user, I would like to be able to split the costs with my group.

- As a user, I would like to be able to view a list of what everyone owes at the end of the trip.
- As a user, I would like to be able to request payment from specific group members for a shared cost.
- As a user, I would like to be able to send a payment confirmation notice to a member after paying them back.

Communication

- As a user, I would like to be able to connect with new people by finding and adding them as friends.
- As a user, I would like to be able to create a shared photo album for trips.
- As a user, I would like to be able to send text notifications to my group.
- As a user, I would like to be able to send email notifications to my group.
- As a user, I would like to be able to send in-app notifications to my group.
- As a user, I would like to be able to receive text notifications about my travel.
- As a user, I would like to be able to receive email notifications about my travel.
- As a user, I would like to be able to receive in-app notifications about my travel.
- As a user, I would like to be able to share my real-time location with added friends.
